EDUCATION

🕒 2020-2024
**Second Class Honors in Bachelor's
Degree of Telecommunication and
Network Engineering**

- King Mongkut's Institute of
Technology Ladkrabang(KMITL)

🕒 2017-2020
Senior High School

- Benjamachutit Ratchaburi
School

SKILLS

Frontend Development

- HTML/CSS
- Tailwind CSS
- JavaScript
- TypeScript
- React
- Next.js

Backend Development

- Express.js
- Node.js
- Django
- Next.js
- Python

Database

- MongoDB
- PostgreSQL

Version Control

- GitHub

ABOUT ME

Graduated in Telecommunications and Network Engineering with experience in full-stack application development. Passionate about coding and committed to continuous learning of new technologies.

EXPERIENCE

Engineering Project July 2023 - February 2024
**Received Signal Strength Computation
and Visualization System for Mobile
Communication Network**

Develop a system and display the received power calculation results of the mobile phone network to calculate the received power and display it on the web application.

- Utilized curve fitting techniques for data analysis and prediction, and implemented K-Means clustering to categorize data based on similar patterns.
- Developed a full-stack web application using Next.js, TypeScript, and Tailwind CSS on the frontend, and using Django and PostgreSQL on the backend for API and database management.

Summer Internship May 2023 - July 2023
Twin Synergy (Front-End Developer)

- Knowledge of Agile methodologies and collaborative workflows.
- Connect API between Frontend and Backend.
- Responsive Web Design.
- Developed web pages using JavaScript, Tailwind CSS, and Next.js.

SOFT SKILL

- Critical Thinking
- Emotional Intelligence (EQ)
- Time Management
- Interpersonal Communication
- Responsibility
- Curiosity and Continuous Learning

CERTIFICATIONS

☑ **Certificate of Udemy**
Successfully The Complete 2024 Web Development Bootcamp.

☑ **Certificate of Udemy**
Successfully completed React Real-World Projects.

☑ **Certificate of Udemy**
Successfully completed the basic of Typescript.

☑ **Certificate of Udemy**
Successfully completed REST API with Django REST Framework.
